

Albany County

COMMUNITY SUSTAINABILITY CHALLENGE

CLEAN HEATING & COOLING

Heat Smart Capital Region is a grassroots community initiative that supports residents and businesses in exploring ways to improve how they heat and cool their buildings.

Learn about clean heating and cooling technology and schedule a free evaluation for your home!

To enroll in the HeatSmart Campaign:
<https://heatsmartcapitalregion.com/enroll>

ELECTRIC VEHICLES

Electric vehicles (EVs) save money and reduce air pollution. Compared to gasoline-powered cars, EVs are more energy efficient and cost about 50 to 70% less to operate per mile. Because New York's electricity includes clean sources, EVs reduce greenhouse gas emissions and pollutants that cause smog and acid rain.

Visit your local dealership for a free test drive today, or visit <https://www.cdtpcm-po.org/AltFuelResources> to find out more about electric vehicles.

COMMUNITY SOLAR

Solarize Albany is a local non-profit that can connect you with community solar, which will provide 10% off your electricity bill for subscribing with a community solar company. You'll also receive \$200 just for signing up!

Enroll through Solarize Albany:
