

DEMOLITION PERMIT SUBMITTAL REQUIREMENTS

1. Completed building permit application.
2. Proof of ownership of structure to be demolished OR written permission from owner of the property.
3. Asbestos Removal Report.
4. Proof of disconnection of utilities.
5. Proof or removal OR disconnection of fuel storage tanks.
6. Insect and rodent removal report.
7. Plan of where demolition material will be disposed of and the route traveled to ship it there.

SAFETY PRECAUTIONS

1. Contact UFPO (Underground Facilities Protection Organization) at 811 prior to commencing demolition.
2. Avoid encroaching on adjacent properties.
3. Provide temporary barriers and safety devices.
4. Explosives CANNOT be used unless authorized by the Bureau of Alcohol, Tobacco & Firearms. Where explosives are utilized, approved fire hoses connected to an approved water supply shall be maintained on-site.
5. If required by the code enforcement official, qualified personnel shall provide an on-site fire watch.
6. Temporary wiring shall comply with the Building Code.
7. Provide an approved vehicle access to the site for fire apparatus.
8. Maintain any required means of egress during the demolition process.
9. Maintain existing standpipes to a minimum of one floor above OR below the floor of work throughout the demolition.
10. Provided at least one portable fire extinguisher as per code.
