I just hope that my voice is heard. I DO NOT SUPPORT the Costco site, nothing against Costco but people do not realize what comes with it. Apartments, other businesses and extra traffic in an already congested and busy area and That's NOT GOOD ! If i was looking for an area to settle with a family it wouldn't be there ! If I was living there as this all progressed ,I'd move. Their tearing apart peoples neighborhoods, that is so sad. I guess its all about the money. There's no concern for the wild life and endangered species? Just the kind of neighbors and businesses I WOULD NOT support. Most importantly, the people who's lives and homes, their sanctuaries, are going to change and be impacted negatively , why?? Well I guess money and power is what's more important , so sad. I guess I'm looking for a hero here. Someone who will stand up and do what's right , who will fight for the average hard working family who just want to keep their home, neighborhood and environment safe and be happy. IS THAT HERO YOU? Thank you for your time and I will pray for all who have a choice to make a difference.      Respectfully, Theresa Chrysler
