

These sprays, dusts, and aerosols are now applied almost universally to farms, gardens, forests, and homes - nonselective chemicals that have the power to kill every insect, the "good" and the "bad," to still the song of birds and the leaping fish in the streams, to coat the leaves with a deadly film, and to linger on in the soil - all this though the intended target may be only a few weeds or insects. Can anyone believe it is possible to lay down such a barrage of poisons on the surface of the earth without making it unfit for all life? They should not be called "insecticides," but "biocides." Rachel Carson

Think globally, act locally!

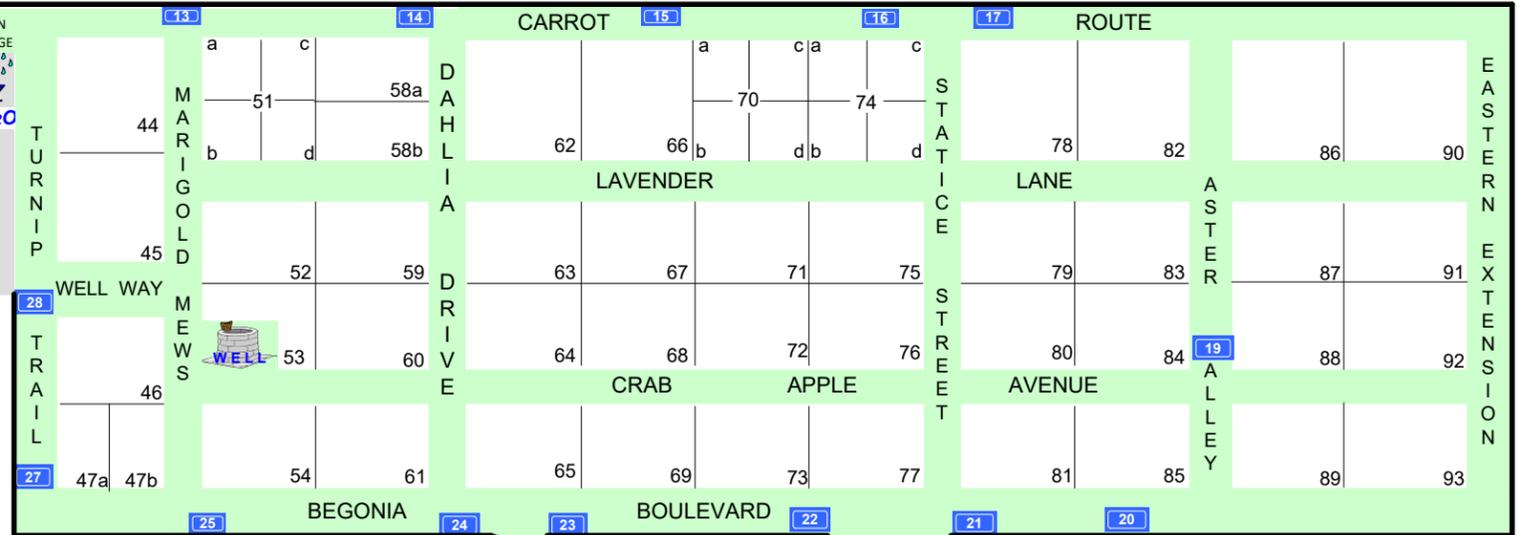

"Behold this compost! Behold it well . . . It grows sweet things out of corruptions." Walt Whitman

TOWN OF GUILDERLAND COMMUNITY GARDENS

est. 1989

Birthplaces of past or present members of the Town of Guilderland Community Gardens

No occupation is so delightful to me as the culture of the earth and no culture comparable to that of the garden. Thomas Jefferson

In the Vale of Tawasentha, In the green and silent valley, By the pleasant water-courses, Dwelt the singer Nawadaha. From "Hiawatha" by Henry Wadsworth Longfellow

Honeybee Hill
