Dear Mr. Kovalchik,

I am writing to lodge my opposition to the proposed Rapp Road Development Project.

As a pre-school teacher for over 30 years, it has been my responsibility to instill in my students the importance of being good citizens of our planet. It is within that vein that I am appalled at how cavalierly our most important environmental resource, The Pinebush, is being threatened by this over reach in development.

We who are fortunate to have this most valued habitat in our landscape have a higher responsibility to ensure that we are maintaining it's survival. This is not just for us, it is for the greater good. The threatened and endangered species that have been provided sanctuary here, must not be challenged. If they are gone from here, they will be forever gone. That is not a legacy that should be justified by more apartments and stores.

There are other means for growing Guilderland that do not invite permanent damage to an environmental wonder that we should be cherishing. If you asked a pre-schooler, they could tell you. The answer to this proposal should be no.

Sincerely,

Lynn Fischer
