Mr. Kenneth Kovalchik,

I am writing as a firm supporter of the Costco project at Crossgates Mall.

My family has grown over the past few years, as we are now a blended family of six. We must purchase items in bulk to make it through the week. I have heard such great things about Costco. They offer quality goods and affordable, healthy options to their members. Their selection is much larger than the other wholesalers in the region. They treat their employees (both full-time and part-time) well, offering an excess of benefits. They offer the lowest prices. Their return policy is great!

Please let Costco make Guilderland their home.

Best,
Melissa Judge
