Dear Mr. Kovalchik -

I have heard about the plans to build a Costco on crossgates property and I am in full support. When you look at development like this, especially with everything we have going on now, we will need projects like this to help our towns start rebuilding.

Costco is a terrific retailer who takes care of their employees. They will provide tax revenue to the town, county and schools.

This is a project that should be approved of so I hope it happens.

Thank you-
Larry Williams
