I'm writing to express my support for Costco being built in Guilderland! The company has an incredible reputation and a wide array of products to meet the needs of all residents. We have nothing like this in Guilderland.

Due to the times that were in and the prediction of having a shortfall of sales tax revenue, this would be a much needed addition to our town, the sales tax revenue and tax base.

Again, I'm writing to support the development of Costco as the value added is unquestionable.

Thank you.
