To those whom it may concern,

I'm a life long Guilderland resident, and I want Costco here in our town. I'm about as liberal as it gets, I'm a strong always blue Democrat. But please let's not go out of our way to prevent economic development for some supposed ecological benefit. Costco is known for its high quality products and high paying jobs. They are the perfect company for our town.

Thank you for your time,  
Michael Schaffer
