Good Morning Kenneth,

I hope this email finds you well. My name is Michaela Burbank, I am a resident of Altamont. I wanted to submit a letter of support for the Costco project on Western Avenue. Please see below:

Dear Members of the Planning Board,

Guilderland has many parks, big and small trails, rivers, pocket parks, golf courses, farms, empty land, and fields. Even our residential areas have plenty of green space, ponds, and trees. We have deer, turkey, bears, foxes, coyotes, small animals and insects aplenty going through our neighborhoods. It is beautiful living here and I am a person who is very concerned about our environment. I have no concerns about the Rapp Rd project impacting ANY of our current variety of birds, insects, plants, and animals.

I also read the parts of the environmental impact statement and saw that the few things that were suggested were of minimal impact. The Pine Bush and County Executives letters did not raise any major concerns about Guilderland's Rapp Rd area either. For these important reasons, I do support the Rapp Rd project being undertaken and think there will be added beauty to our already lush town.

I appreciate your time,

Michaela Burbank
