To whom it may concern,

My company and I have had the opportunity to work for Pyramid Management on many projects, and I hope that you will support the proposed development currently in front of you.

We have provided construction services at the Crossgates property — everything from fit-ups and remodeling at the mall to work at the new hotel during construction. This work has been important to my company and our employees. It translates into good paying jobs and supports so many families in the Capital District.

We should be happy that Pyramid is willing to reinvest in the area around the mall as well as in our region and with our workforce. The construction and completion of these projects will employ hundreds of hard-working, blue-collar members of our community.

Now more than ever, with the COVID-19 pandemic, these potential jobs could be a lifeline to many families. The Governor is talking about getting the economy back up and running and these projects represent solid, good-paying jobs for our region and industry. I also believe these projects will have a tremendous long-term positive impact on the county and region.

Finally, I would like to address Pyramid as a corporate citizen. The organization has been successful by leading in their industry. That is the driving force behind the fact that their properties are growing. These projects will support further investment in our community and our workforce and benefit our taxpayers.

I hope you'll do your part in supporting job creation in our region by backing these responsible projects.

Sincerely,

Billi Paro
