Hello. I am a resident of Guilderland since 2006 and my husband has lived here since 1999. We are very much in favor of a Costco being built near the mall. There used to be a Sam's Club where Walmart is now in Crossgates Commons and we really miss being able to shop at a wholesale club within 5 miles of our home. I have been to Costco in California and it was a wonderful place to shop. I would bring my family members there also and they would benefit from shopping there also. Costco would provide local jobs and increase business in the area around there. I often patronize small businesses on Western Avenue and the surrounding town of Guilderland and would absolutely continue to do so. Thank you for seriously considering this valued retail store to be built in our area.
