Good afternoon,

I hope this note finds you well. I am writing in support of the projected project. I am most excited for the idea of a Costco in this area, which can only bring increased competition and consumer savings of driving lower costs to necessary grocery items.

Personally, my brother works for Costco on Long Island and am secretly hoping he will be able to transfer to the wonderful Capital Region so that I can have family closer to me.

Please approve the project! It can only bring good things to Albany!

Stay safe and be well!

Many thanks,
Jessica Tremblay
