Re: Rapp Road Residential/Western Avenue Redevelopment Project

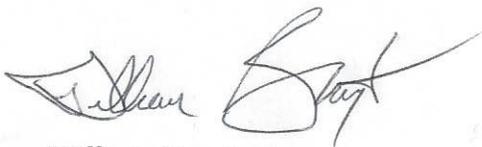

To Whom It May Concern:

I am writing to express my support for the proposed Western Avenue land development near Crossgates Mall. It is my opinion, that the local community would benefit immensely from the planned mix of residential and commercial construction.

For nearly three decades I have had the pleasure of working with the Pyramid Companies on the construction of retail store fit-ups, most recently on their new hotel project adjacent to Crossgates mall. I have always found their firm to conduct business with the utmost professionalism, and in my experience, their reputation as as a socially responsible firm is certainly warranted.

I urge you to consider the economic benefit that the proposed project would bring in adding both tax revenue and local jobs. This initiative is an important next step in developing this thriving area.

Sincerely,

William Brayton
Vice President
