To the Town of Guilderland:

I have heard that Costco is planning to open a store in Guilderland and I'd like to make sure you know you have my support. Right now we use another bulk warehouse for shopping but as a busy working mom of 2 young kids, a Costco would be perfect for our family! I've been lucky enough to experience shopping at Costco in the past in another state and would LOVE to have this store locally! I really hope the town decides to approve this, I think it will be a wonderful addition to our community and very healthy for our community. Especially now!

Thank you for your consideration,
Jordan and Mike Page
