I support the responsible use and development of the land. The economic benefits of a CostCo, jobs, tax revenue and an increase of shoppers who will visit other area businesses, should not be in question. The biggest complaint I hear/read is the increase in traffic. What people don't seem to realize is there will be a complete redesign of the Crossgates Mall Rd adding two roundabouts. This redesign should alleviate much of the traffic congestion caused by vehicles stopping at traffic lights. No doubt people in the greater capital district area shop at CostCo, they just do it in Springfield, Ma or Connecticut. What not keep that business here and reap the benefits. As I said earlier it will help businesses at the mall and the surrounding area.
