Dear Ken Kovalchik,

Please accept this letter as support for the residential and Costco development at Crossgates. My family and I cannot wait to have a Costco nearby in our community.

My husband and I both work in Guilderland and reside in Schenectady county. I have a sibling that own multi businesses in Guilderland and the continued growth of the town keeps them going strong. As much as people say that it will create more traffic, it won't. That area was made for business....and what we have is not considered "traffic". But what we will have is a thriving business community that will allow for a stronger tax base in the town and our county and more money for the school district where I graduated and where my family and friends kids go to school.

Especially in light of the current situation, we NEED this to happen. Our economy will depend on development like this in our future. So please consider approving of it.

Thanks for your time.

Molly Karrel
