Dear Mr. Kovalchik,

My name is Laura M. Szesnat and I am the president of Constantine Construction and Farm, Inc. a women own business. The Constantine family had been at the same location since 1914 and have been providing services and living in the Capital District Area.

We believe that the project of developing three vacant or underutilized parcels of land for residential components, missed-use space and Costco will make Crossgates great.

This project will be an economic boom to the region, will increase the number of jobs for many people including many small business in the construction field, and bring a large tax revenue to the area, which includes sales tax, property taxes, and school taxes.

Crossgates is also one of the most charitable organizations in the region, partnering with over 135 locate non-profits and hosting over 500 fundraising events annually. Through this support Crossgates raises more \$1 million annually. Once this project is approved, Crossgate will donate land to Albany Pine Bush and Rapp Road Historical District.

Costco is one of the most desired national brand to shop at. It is a store that is definitely needed in this area.

I support the project at Crossgates Mall.

Thank you,

Laura M. Szesnat
