Mr. Kovalchik,

I am a college student that will be graduating soon and moving back to the area. I support building a Costco in Guilderland because of the positive impact that it will have on jobs in the town. Building it near Crossgates would be great because it would mean easy access to a wide variety of restaurants, stores and entertainment venues.

I also support the proposed apartments being built in the area. As someone who is about to enter the workforce, having new options for living that are conveniently located would be awesome.

Thank you,

Molly Dooley
