Hello,

Please approve the construction of Costco to the Rapp Road/ Western Ave project. Costco does things and provides services to the community that no other retailer does. One of these is provide low cost high quality hearing aids to the elderly. They are top rated by Consumer Reports for this. Check it out. Reviews are online. I spent \$5000 on my last pair of hearing aids. It is a struggle to afford these on a fixed income. Hearing Aids have a limited life and need to be purchased every few years. I will need to buy another pair soon.

Thank you,

Stephen G. Knuth
