Dear Sir,

As long time residents at 27 Westmere Terrace we are directly impacted by this proposed project and do oppose it!

The proposed 5 story apartment buildings and several town houses, coupled with the increase in area traffic will all serve to eternally change the tranquil character of our charming cul-de-sac.

Our neighborhood meetings with the Pyramid company have enabled us to secure certain promises from the company that have ameliorated most all of our concerns.

However these "promises" have yet to be incorporated into an enforceable documentary form.

Westmere Terrace needs to be incorporated into the the EIS as well as all of the adjacent areas and properties affected by this monster proposal.

The environmental impacts of this project coupled with the future development plans of this company (in all of its corporate names) in this imeadiate area need to be scrutinized to the nth degree.

This process must not be rushed or impeded in any fashion by any person or entity.

To do anything less would be a betrayal of the confidence the people of Guilderland have placed in the towns boards and officials.

Sincerely,

Karen and Barry Howe

27 Westmere Terrace
