To: Kenneth Kovalchik <kovalchikk@togny.org>

Mr. Kovalchik,

My name is Lisa Hart and I am a resident of Westmere Terrace. As you are very well aware, our street will be severely impacted by this project since it is directly on the other side of our street. I know you are also aware that we would rather not see this project come to fruition, but since being told by the town that we cannot stop it, we have been working with Pyramid and the town to come to an agreement on the best way to keep our quiet neighborhood as it is.

After reading the Draft Scope, I noticed Westmere Terrace was not on there to be included in the EIS. I specifically asked you at one of our meetings at the rescue squad if this could be done as well as be included in any kind of new traffic study as, again, this will severely impact us. We also spoke of a possible trip sensor on the end of our street. You were amenable to these suggestions and said you would see what you could do about it and would make calls.

I am requesting, again, that our street be included in this study. I think it is only fair because of the severe impact this project will have and also the future projects that are being proposed by Pyramid that will inundate us with that much more traffic in the future.

Thank you for your time.

Lisa Hart
5 Westmere Terrace
