Questions or Comments

Please leave your comments or questions below.

First off I love WTGC
Casey and Joe are top notch.
Is there any part of the comprehensive plan that focuses on WTGC (golf course)? It mentions "maintenance" but that needs to be defined.

Truly this year it was a fight between the rain and getting grass cut but overall maintenance needs to still be addressed. As a member of WTGC & taxpayer is there any plan to fix the cart paths or finish the repairs left uncompleted(white hole 4 as an example)
Every golf course has drainage/water issues but it just seems that over the last few years the cart paths and hardscape are deteriorating faster than they can be maintained. (Red 7 path and Blue#3 walls are hazardous) but all are in need of attention
