Thank you to the town and Crossgates/Pyramid for working so diligently on bringing a Costco here to Guilderland. I'm in favor of Costco coming to our town because of the many jobs it will create and bring here...careers for the future as well! I hope that the IDA takes that final step to allow the project the financial assistance they are seeking...it's been done many times before and this is certainly a project that is worthy. I would like for my support for this project to be noted at both public hearings for Costco. Can't wait to see this project take shape!
