Hello,

I'd like to start off by thanking the Town of Guilderland for following through on this incredible project and opportunity for our community. I am in total support of the Costco project so I would like to add this to the file of support in front of the IDA for both public hearings next week. I know that the Costco project has been approved by the town on multiple occasions and the area where it is going to be built is zoned for commercial development. I wanted to reach out to stress my support as someone who believes this project will be good for our community. Not only will the retail of Costco products be a benefit to shoppers but so will the opportunity the construction project brings along. It will be great to see all of the job opportunities that will become available.

Thanks,

Grace Powers
